Library Mission . . . . .	19

## NEW ADDRESS FOR THE AHRQ INFORMATION RESOURCES CENTER

The Information Resources Center (IRC) which serves the Agency for Healthcare Research and Quality (AHRQ) has recently moved to a new location at 540 Gaither Road, Rm 1000, Rockville, MD 20850. The new telephone number is: 301-427-1370.

The IRC was created in 1992 to meet the research and information needs of the AHRQ in the areas of outcomes research, quality of health care, patient safety and medical errors, health services research, evidence-based practice, and health care delivery services. Its collection includes over 250 journals and newsletters, a reference collection of 250 volumes, 190 audiovisuals, and a book collection of 950 volumes. The IRC staff consists of three librarians and an information resources specialist that provide a comprehensive range of information services. These services include: online literature searching from over 50 electronic databases/systems and retrieval of requested documents; a weekly summary of all recently published AHRQ funded research; notice of materials recently acquired by the IRC; and tracking of ongoing areas of interest for AHRQ staff.

Tours of the library are available as well as group training on electronic resources. The IRC is open to the public Monday through Friday, 8:30 a.m. to 5:00 p.m. For more information, please call 301-427-1370.

## AIDS VACCINE RESEARCH

Vaccines that protect against infection are typically developed through a series of different studies or trials. After basic biological research and animal studies have been completed, progressive clinical trials in humans are conducted. Advancement from one phase of trials to the next depends on the successful completion of the previous set of trials. The CDC HIV vaccine unit promotes the development and evaluation of safe and effective HIV vaccines with the highest scientific and ethical standards. Further, its goals include facilitating and supporting laboratory research relevant to HIV vaccines, conducting HIV vaccine trials (phase I, II, III, and IV), developing and providing information on HIV vaccines to the public and health care workers, and conducting social and behavioral research to support the development of innovative approaches to trial design, implementation, management, and analyses. Currently, no HIV/AIDS vaccines are approved for use, however, many are in clinical trial studies.

## BONE DENSITY

Bone density is defined as the amount of bone mass in a certain volume of bone. It is measured using a special x-ray called a dual-energy X-ray absorptiometry. Females are a greater risk for loss of bone density than males. Decreased bone density is associated with advancing age. NCHS has collected data on bone density in its National Health and Nutrition Examination Survey.

## MEDICAL ERRORS AND HOSPITALIZED CHILDREN

Medical errors occur in 2-3% of hospitalized children in the U.S. Errors are more common in those children with special medical needs as well as those who are dependent on a medical technology. In addition, children who remain in the hospital for more than 5 days have a higher rate of errors than those who are released earlier. AHRQ has recently funded research to study the occurrence of medical errors in hospitalized children.

## NATIONAL COMORBIDITY SURVEY

The National Comorbidity Survey (NCS) was a Congressionally mandated survey of psychiatric disorders designed to produce data on the prevalence, causes, and consequences of psychiatric morbidity and comorbidity in the U.S. It was the first U.S. survey to administer a structured psychiatric interview to a nationally representative sample of the general population. The NCS collected data from

8098 respondents aged 15-54 between September 1990 to February 1992. The majority of the funding for this survey was provided by NIMH. Listed below are articles that used data from the NCS.

## THERAPEUTIC COMMUNITIES

Therapeutic communities (TCs) are drug-free residential programs that use a hierarchical model with treatment stages to reflect increased levels of personal and social responsibility. Peer influence is utilized to help residents learn and assimilate social norms and develop more effective skills. Each year, TCs help tens of thousands of people with varying degrees of drug problems, many of whom also have complex social and psychological problems as well. For three decades, NIDA research has documented the important role TCs have played in treating individuals with drug-related problems.

## SELECTED NEW ACQUISITIONS

To permit review of all books and reports in this list, they will not be circulated until three weeks from the date of this Bulletin. All materials are available for review on the NEW BOOKS display shelf near the Service Desk of the Library. You may reserve any book simply by completing the yellow strip form available on the display shelf.

## GUIDE TO LIBRARY RESOURCES

**ENCYCLOPEDIA OF PSYCHOLOGICAL ASSESSMENT.** Fernandez-Ballesteros, Rocio, ed. Sage Publications Ltd., London, 2003. REF-DICT BF 176 E65 2003

Devices of psychological assessment are needed for describing, diagnosis, predicting, explaining or changing the behavior of subjects under examination. This two volume set offers complete coverage to facilitate action in each of these areas. It contains a series of 235 entries, organized alphabetically. Each entry contains a general conceptual and methodological overview, a section on relevant assessment devices, links to related concepts, and a list of references. The encyclopedia provides:

An extensive network for psychological assessment

An overview of the complex nature of assessment

A presentation of relevant issues pertaining to psychological assessment

**INSURANCE DICTIONARY: WHAT MEANS WHAT WHEN IT COMES TO LIFE, HEALTH, BUSINESS, HOME, AUTO AND OTHER COVERAGES.** Loberg, Kristin, Schlank, Christina, Thorpe, Megan, and Walsh, James, eds. Silver Lake Publishing, Los Angeles, CA, 2002. REF-GEN HG 8025 I59

This dictionary contains nearly 3,000 words, phrases, and definitions related to insurance policies and claims. Definitions are cross-referenced and annotated with icons that indicate general categories of insurance or markets in which it is sold. The following are a few of the book's 17 reference categories:

Annuities  
Aviation  
Crime  
Estate Planning  
Health  
Ocean Marine  
Property

**LIBRARY CLIENTELE**

The Parklawn Health Library System serves the following components of the Department of Health and Human Services (HHS):

- Administration for Children and Families
- Administration on Aging
- Agency for Healthcare Research and Quality
- HHS Regional Offices
- Health Resources and Services Administration
- Indian Health Service
- National Center for Health Statistics
- National Institute of Mental Health
- National Institute on Drug Abuse
- Office of the Secretary
- Office of Public Health and Science
- Program Support Center
- Substance Abuse and Mental Health Services Administration

## **LIBRARY MISSION**

The Parklawn Health Library, the NCHS Staff Research Library, and the Information Resources Center plan, develop, and administer a national research collection and innovative information programs in direct support of the Department of Health and Human Services.

## **LIBRARY COLLECTION**

The Scope of the collection includes the delivery of health care, health administration, health policy, health services research, health promotion and disease prevention, computer sciences, management sciences, medical sociology, health statistics, international health, epidemiology, public health, mental health, psychiatry and neurology, and substance abuse.
